

IN THE SPECIFICATION:

Page 1, Line 1, between the title and the first paragraph, please insert the following new paragraph:

This application is a continuation of United States Patent Application No. 09/331,040, filed June 15, 1999, now abandoned.

IN THE CLAIMS:

Please cancel claim 1 and substitute therefor the following new claims:

1 (Canceled).

2 (Newly Presented). A composition comprising (a) a first active ingredient selected from the group consisting of avermectin, 22,23-dihydroavermectin B<sub>1</sub>, and milbemycin; and (b) a second active ingredient selected from the group consisting of agonists and antagonists of the nicotinerbic acetylcholine receptors of insects, wherein said composition is effective in controlling fleas on animals.

3 (Newly Presented). The composition of claim 2, wherein said second active ingredient comprises imidacloprid.

4 (Newly Presented). The composition of claim 2 further comprising at least one inactive ingredient, thereby forming a material useful for prophylactic or therapeutic use in treatment for flea infestations in animals.

5 (Newly Presented). The composition of claim 2, wherein said composition is further effective in controlling infestations of Dirofilaria immitis in dogs and cats.
